

# SUNSEVEN GROUP

Cryptocurrency  
Investment Solutions

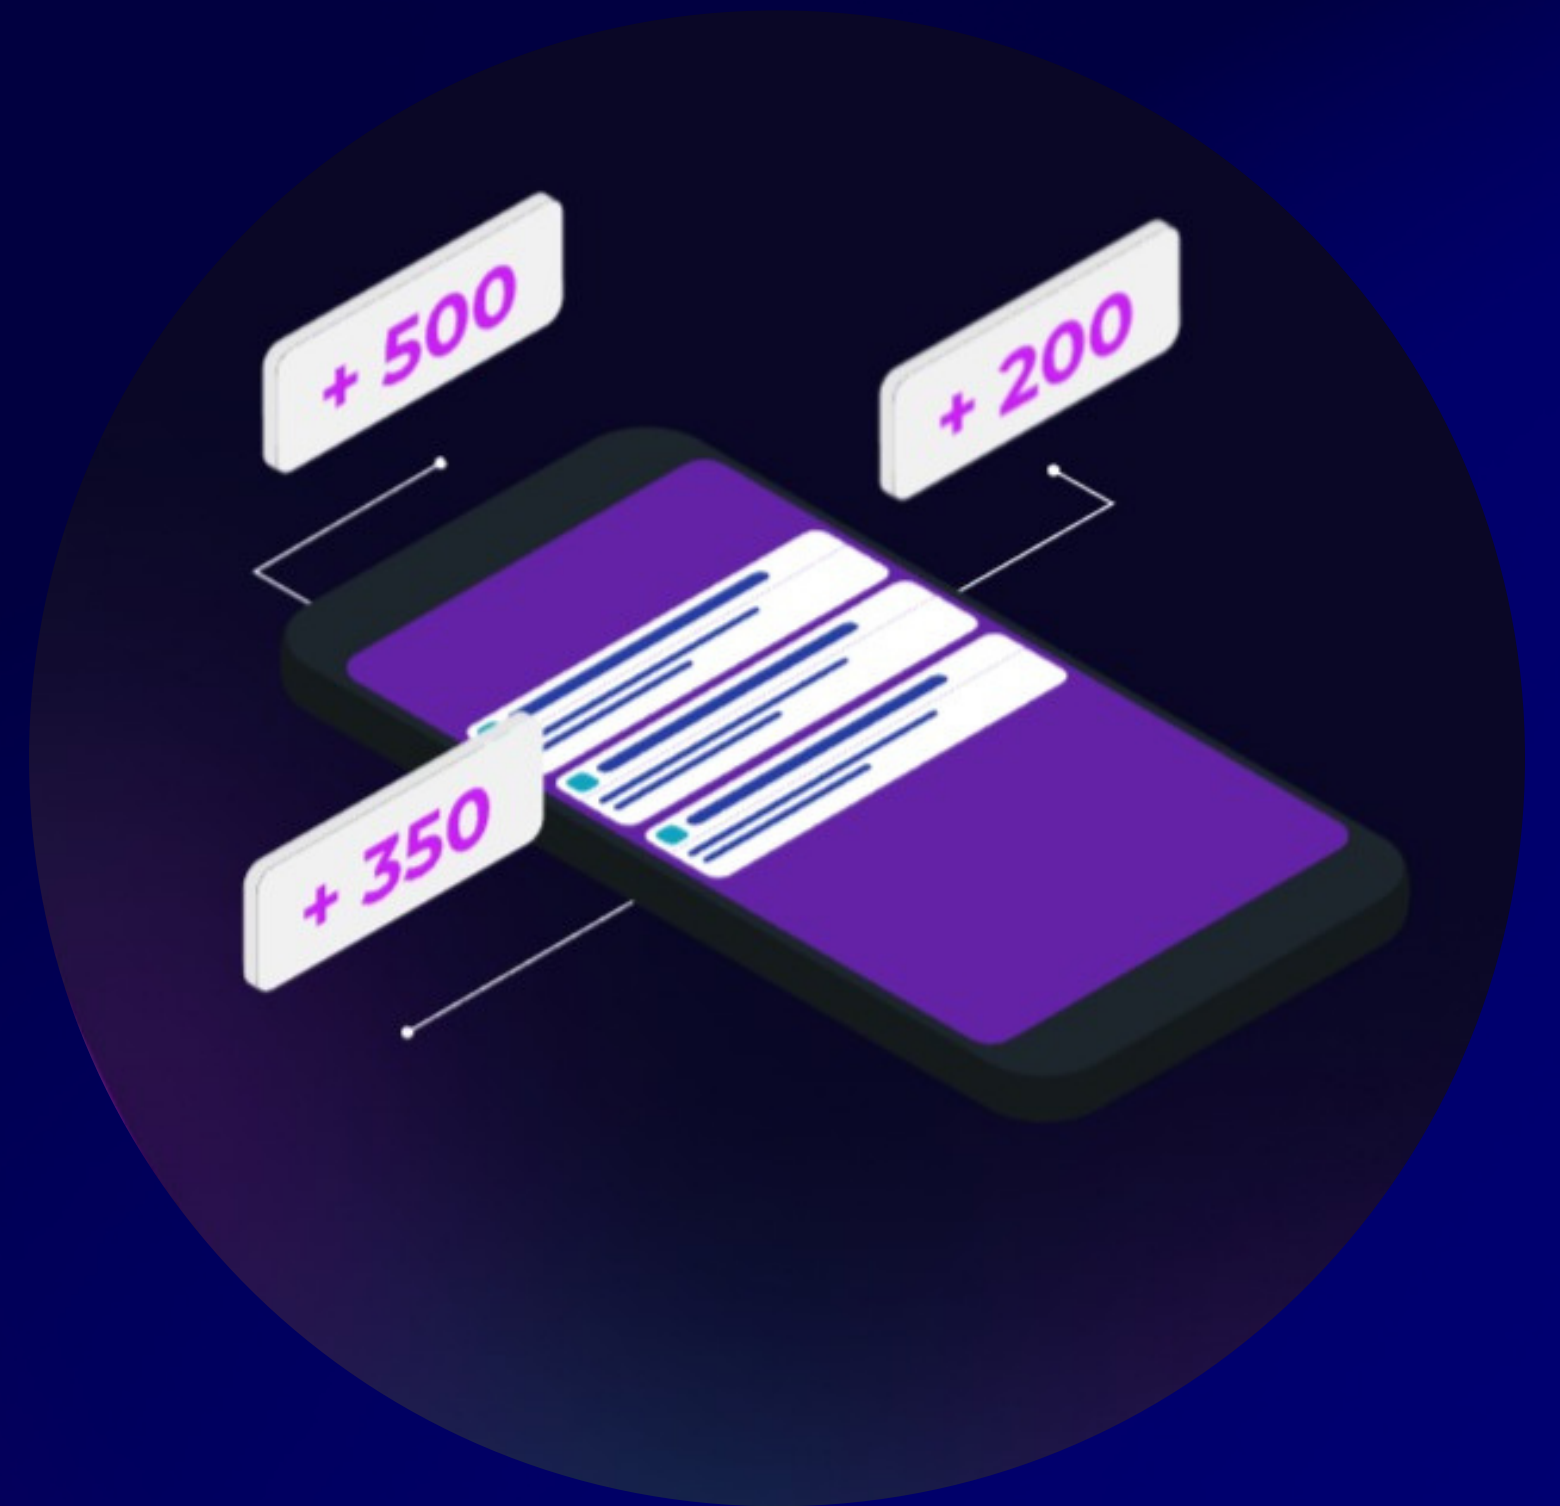

[www.sunseven-group.io](http://www.sunseven-group.io)

# Welcome!

**Sunseven was founded by a group of like-minded fellows who developed an innovative system of trading in the cryptocurrency market and conducted numerous analyses and researches in order to understand which assets will be profitable in the near future, so the company grew rapidly and attracted talented and ambitious traders from all over the world.**

**From the very beginning, thanks to the algorithms of our financial strategy, we managed to pleasantly surprise our investors, and their profits have exceeded all expectations.**

**As a result, Sunseven has attracted even more investors who trust us and are willing to work with us step by step to realize our future goals!**

# Documents

- Sunseven is proud to be registered in Hong Kong, a global financial hub known for its robust regulatory framework and business-friendly environment.
- Hong Kong provides a solid foundation for our operations and reflects our commitment to transparency, compliance, and high standards in the financial industry.
- Our registration in Hong Kong ensures that we adhere to the stringent regulatory requirements set by the Hong Kong Securities and Futures Commission (SFC).

Registration of a company name with the Companies Registry does not confer any trade mark rights or any other intellectual property rights in respect of the company name or any part thereof.

# Company strategies

- **Scalping (8.5%):** This is an active trading strategy that is based on rapid buying and selling of crypto assets, in order to make money on short-term price changes.
- **Day-Trading (12.5%):** This is a strategy where trades are opened and closed during one trading day. Sunseven has created a team of professional day traders who carefully analyze the market and make informed decisions about buying and selling cryptocurrencies during the day.
- **Futures Trading (26.0%):** Sunseven has invested heavily in cryptocurrency futures trading. Futures allow the company to engage in speculative trading based on the future price of the asset.
- **PoS Mining (54%):** Sunseven decided to implement mining based on the Proof of Stake (PoS) algorithm to generate cryptocurrency. With PoS, coin ownership allows participants to mine new blocks according to their share of the network.
